2 Make Eco-Bricks.

It will inculcate the reusing/ repurposing feelings in the children. To make eco bricks, children are supposed to cut the plastic waste into small pieces and fill them in a plastic waste bottle (like cold drink bottle). For cutting plastic in small pieces, students can take help of their parents. The bottle needs to be filled completely. After filling it, the plastic inside needs to be pressed so that it can accommodate more plastic. A small bottle can hold upto 30-40 plastic wrappers/ polyethene bags.

We will be sending all the eco-bricks to Rising Foundation which will use them in beautifying the parks.
